Open to Head of IT / Group IT Manager roles

Profile

ERP and IT operations leader with 12+ years in Bangladesh's Ready-Made Garments sector, now running ERP and IT across Bitopi Group's manufacturing units at Cumilla EPZ and reporting to the Group Sr. GM of ERP & IT.

I design and run enterprise networks (LAN, WAN, VPN, Cisco routing and switching), lead ISMS assessments and vulnerability management, and administer Windows and Linux servers, VMware and Hyper-V, Microsoft 365 and Active Directory. I also own the IT budget, vendor relationships and procurement, and the factory systems production depends on: CCTV, RFID, face recognition, access control and IP-PABX.

Experience

Deputy Manager, Enterprise Systems & IT Operations Leader

Jan 2026 – Present

Baridhi Garments Limited (Bitopi Group), Cumilla EPZ

- Lead and oversee ERP and IT operations across manufacturing units, keeping systems stable, secure and scalable.
- Act as the link between business users and technical teams, translating operational needs into ERP solutions.
- Manage ERP system administration, user access control, process optimisation and compliance.
- Supervise IT infrastructure: servers, networks, printers, backups and security policies.
- Drive digital transformation initiatives that improve efficiency, data accuracy and reporting.
- Coordinate with vendors, consultants and internal stakeholders on system upgrades and support.
- Mentor and guide the ERP & IT team, ensuring timely issue resolution and skill development.

Major projects & achievements

- Optimised ERP processes for garment manufacturing operations, reducing manual work and operational delays.
- Ran ERP user training and change management, raising adoption across Production, HR, Accounts and Commercial.

Core strengths

- ERP administration
- IT infrastructure strategy
- Network architecture
- Cybersecurity & ISMS
- Cisco routing & switching
- Disaster recovery & BCP
- VMware / Hyper-V
- Microsoft 365 & AD
- Budget & vendor management
- Team leadership & training
- Applied AI (Gemini, IBM)

Technical skills

Operating systems

Windows Server 2008–2022 | Windows 7–11 | Ubuntu | CentOS | macOS

Networking

Cisco IOS | LAN / WAN / Wi-Fi / VPN | OSPF, RIP, BGP | DHCP / DNS | IP-PABX

Security

Firewalls | IDS / IPS | ISMS assessment | Vulnerability analysis | Access control | CCTV, RFID, Face recognition

- Led resolution of critical ERP performance, reporting and data-accuracy issues under tight deadlines.
- Cut IT service response time by restructuring ticket handling and writing standard operating procedures (SOPs).
- Kept IT and systems at zero downtime during large-scale company events and operations.
- Improved ERP reports used for management reporting and data analysis.
- Maintained business continuity through regular backups, system monitoring and preventive maintenance.

Assistant Manager, ERP & Information Technology

Feb 2022 – Jan 2026

Baridhi Garments Limited (Bitopi Group), SFB # 7 & 8, Cumilla EPZ

- Built the full digital infrastructure for head office and multiple factory locations, including LAN/WAN/VPN deployment and remote connectivity.
- Conducted organisation-wide ISMS assessments and reduced risk through proactive vulnerability scanning and firewall implementation.
- Led integration and support of Office 365, Exchange Server and Active Directory, improving internal communication and authentication security.
- Supervised ERP operations, simplifying business processes and improving cross-departmental efficiency.
- Managed IT budgeting, procurement and vendor relations for cost-effective hardware, software and licensing investments.
- Provided executive-level reporting on IT performance, security incidents and infrastructure upgrades.
- Coordinated business continuity planning, disaster recovery and regular employee security awareness training.
- Ran next-generation firewalls, IDS/IPS, endpoint security and VMware / Hyper-V virtualisation; managed CCTV, RFID, face recognition, access control, IP-PABX and Polycom systems.

Senior Executive, IT & MIS

Feb 2020 – Feb 2022

Misami Garments Limited (Bitopi Group), Shewrapara, Mirpur, Dhaka

- Administered domain controllers, file servers, security systems and the virtualised server environment.
- Administered the ERP system and MIS reporting, delivering accurate and timely reports to senior management.
- Integrated the payroll system with IT infrastructure and kept HR and finance data consistent.
- Delivered Level 2/3 support across hardware, software, network and peripherals; kept IT asset records current.
- Configured Microsoft 365 and Outlook and managed user accounts through Active Directory.

Servers & cloud

Active Directory · Exchange · File / Print / Web servers · Microsoft 365 · Teams · SharePoint · OneDrive

Virtualisation

VMware vSphere · Microsoft Hyper-V · Virtual networking

ERP & MIS

ERP administration · MIS reporting · Payroll integration · Business intelligence

AI & generative AI

AI fundamentals · Google Gemini · Generative AI · Prompt engineering

Hardware

Cisco switches / routers · Barcode & network printers · POS & handheld scanners · Plotter & cutter · Avery Dennison conveyor · Polycom · UPS / IPS

Education

B.Sc. in Electronics & Telecommunication Engineering

ULAB, major in Networking

CGPA 3.00 / 4.00, 2012

HSC, Science

Dhaka Public College

GPA 3.50 / 5.00, 2007

SSC, Science

Alijan J.M. Academy

GPA 3.63 / 5.00, 2005

IT Executive
Nov 2017 – Jan 2020

Amichi Apparels Limited, Kallyanpur, Mirpur, Dhaka

- Managed LAN/WAN, wireless and VPN connectivity; configured Cisco switches and routers.
- Administered CCTV, access control and video conferencing systems.
- Maintained Windows servers (file, print, DHCP, DNS) and online/offline UPS/IPS for critical equipment.
- Provided end-user support, wrote technical documentation and kept hardware and software asset registers.

System Engineer, IT
Sep 2014 – Oct 2016

RingTech Limited, Mohakhali, Dhaka

- Designed and deployed client networks: router administration, interface configuration, RIP and OSPF.
- Configured Cisco switches and routers for LAN, WAN and Wi-Fi; tuned and troubleshot network performance.
- Analysed client workflow, access and security requirements to specify infrastructure; supported Windows Server and Linux.

Management Trainee Officer
Mar 2013 – Aug 2014

Alif Corporation, Tejgaon Industrial Zone, Dhaka

- Rotated through IT operations, infrastructure management and business processes; handled IT support, hardware maintenance and network operations.

Intern
Jul 2012 – Dec 2012

BTCL (Bangladesh Telecommunications Company Ltd.), Ramna, Dhaka

- Six-month internship covering telecom infrastructure, switching systems and network operations.

Project

Self-hosted media server
Personal streaming server published over HTTPS through Tailscale Funnel, with no open inbound ports.

Certifications

AI Fundamentals: Foundations for Understanding AI
IBM
Issued Sep 2026
Credential ID 8614acf3-9a75-4efd-be0d-9475ddb10399

Cybersecurity
Asian Development Bank (ADB)
Issued Sep 2026
Credential ID 194062-178-903-8242

Generative AI for Educators with Gemini
Google Digital Academy (Skillshop)
Issued Nov 2025
Credential ID 435082776

Gemini Certified Educator
Google
Issued Oct 2025, valid to Oct 2028
Credential ID 163981769

Professional training

CCNA Training
Switching, routing, RIP, OSPF, BGP, Knowledge Academy, Dhaka
2014, 10 months

Linux & System Administration
Mail, file, web, DHCP, NFS, proxy, Samba servers, New Horizons, Dhaka
2019, 3 months

Campus Network Design
Server configuration, print server, security policy, ULAB
2012, 3 months
